

The Cryo slide is an upgrade to the Duty slide with window cut-outs positioned in front of the barrel lock-up, leaving the front serrations uninterrupted for quick and easy slide manipulations. Cryo slides feature the same workmanship and quality that ZEV is known for with a functionally driven design and utilitarian coating for the no-nonsense shooter who is looking to complete a new frame build or to enhance the functionality of their Glock.

The black nitride finish provides a durable coating and the patented ZEV RMR cut enables the use of red dot sights using an RMR installation footprint. We've reduced the cost, but not the quality.

**ZEV Stripped Slides features:**

- Machined from 17-4 Stainless steel billet
- Lowered ejection port to aid in ejection of brass
- Match grade, precision milled tolerances that are tighter than factory
- Improved accuracy and grouping performance upon installation
- Torx wrench and two sets of RMR screws (tall and short) included

**NOTE:** ZEV RMR Cover Plate not included. Sold separately.

**ZEV Slide Specifications:**

Model	Width	Height	Length	Weight
G19	1.0"	.84"	6.75"	8.9 oz.
G17	1.0"	.84"	7.25"	9.1 oz.

MODEL	GEN	BLACK
19	1-3	SLD-Z19-3G-CRYO-RMR-B
