

ZEV Technologies introduces a new level of modularity to the Gen3 G19 platform with Citadel Conversion Slides. Just as the name implies, you can now quickly and easily convert your Gen3 G19 for different uses. Offered in two sizes, 19L and 19XL, the longer Citadel Conversion Slides bring increased accuracy and control to the compact platform.

The G19 is a great platform configured for concealed carry, but why stop there? Install a 19L slide and now it's ready for a range day, training class, or home defense. Install the 19XL and now it's ready for competition use. The ZEV Conversion Slides provides the ability to configure one firearm to match any need without having to purchase additional serialized frames.

ZEV Conversion Slides are only compatible with OZ9C and Gen3 G19 frames. Due to the difference in locking lugs between compact and full size frames, ZEV Conversion Slides require the use of ZEV Gen5 G17 or G34 Optimized Match Barrels. ZEV recommends the use of our 20lb. compact recoil spring and guide rod with both the 19L and 19XL, however the use of original G19/O.Z-9C guide rod and springs are acceptable.

ZEV Stripped Conversion Slides features:

- Machined from 17-4 Stainless steel billet
- Lowered ejection port to aid in ejection of brass
- Match grade, precision milled tolerances that are tighter than factory
- Improved accuracy and grouping performance upon installation
- RMR adapter plate included

ZEV O.Z9C Conversion Slide Specifications:

Model	Width	Height	Length	Weight
Citadel 19L	1.0"	.84"	7.25"	10.1 oz.
Citadel 19XL	1.0"	.84"	8"	10.8 oz.

MODEL	GEN	SKU
CITADEL 19L	1-3	SLD-Z19L-3G-CIT-RMR-DLC
CITADEL 19XL	1-3	SLD-Z19XL-3G-CIT-RMR-DLC

NOTE:

- O.Z-9C specific parts (slide, barrel, grip) are **NOT COMPATIBLE** nor interchangeable with the O.Z-9.
- These slides will **NOT** work on Gen4 or Gen5 frames
- These slides will **NOT** work on G17, G34, or O.Z-9 frames
- These slides will **NOT** work with Gen3 or Gen4 G17 or G34 barrels
- 19L requires the use of a ZEV Gen5 G17 Optimized Barrel
- 19XL requires the use of a ZEV Gen5 G34 Optimized Barrel
